

WARNING, WARNING - ADVENT VIRUS – Anonymous via email

Be on the alert for symptoms of inner Hope, Peace, Joy and Love. The hearts of a great many have already been exposed to this virus and it is possible that people everywhere could come down with it in pandemic proportions. This could pose a series threat to what has, up to now, been a fairly stable condition of conflict in the world. Some signs and symptoms of **The Advent Virus**.

- A tendency to think and act spontaneously rather than hold back because of fears based on past experiences
- An unmistakable ability to enjoy each other and every moment
- A loss of interest in judging other people
- A loss of interest in looking for the worst in people
- A loss of interest in causing conflict
- A loss of the ability to worry (this is a very serious symptom)
- Frequent, overwhelming episodes of appreciation
- Contented feelings of connectedness with others and nature
- Frequent attacks of smiling
- An increasing tendency to just go with the flow rather than planning every minute of each day

An increased susceptibility to the love extended by others as well as the uncontrollable urge to extend it

Please send this warning out to all your friends. This virus can and has affected many systems. Some systems have been completely cleaned out because of it.

An induction loop is installed in this Church for the hard of Hearing. If you use a hearing Aid switch it to the "T" position
